

# Stonington's Solution to the Waste Crisis

Connecticut faces  
a waste crisis—

**TOO MUCH TRASH.** No more room.

If nothing is done,

around **850,000 TONS** of trash will need to be  
**SHIPPED OUT OF STATE.**

**Disposal costs will rise by as much as 60%**  
*if we do nothing.*

**WE HAVE A SOLUTION:**  
*A waste reduction pilot program.*

**WE NEED YOUR HELP**  
to slow rising costs and make our community  
cleaner by separating our food scraps  
from our trash and recycling better.

**Thanks for doing your part!**
